

# MS4

## STORMWATER: WHY DOES IT MATTER?

---

Stormwater is the leading cause of water quality impairments nationwide. The Clean Water Act authorizes EPA and state agencies to regulate water sources that discharge pollutants through the Non Point Source Discharge Elimination System (NPDES) permit program. Our stormwater experts are knowledgeable and experienced with NPDES and Municipal Separate Storm Sewer System (MS4) regulations.

## What is it?

The 2017 MS4 permit requires permittees to develop and implement a comprehensive Storm Water Management Program to ensure communities' compliance managing their stormwater.

## What is required?

- Stormwater Management Plan Updates
- Illicit Discharge Detection & Elimination
- Stormwater System Mapping
- Outfall Investigations
- Salt Management for Winter De-Icing
- Nutrient Control (Nitrogen & Phosphorous)
- Pollutant Control
- Public Education/Outreach & Participation
- Construction & Post Construction Site Runoff Control

## How we help:

MS4 communities face many complex compliance issues. Our experts help communities navigate the permit requirements.
